

Autobiography

Since graduating from college at UNLV 2004, I have been working as a freelancer. My freelance experience began in 2011 when I got my start filming weddings. Shortly thereafter, I decided to pursue my interest in producing film and video.

As a freelancer, I have found my niche in editing from transitioning from Final Cut Pro to Adobe Premiere. I have edited anything from promos, trailers, short films, etc. I won my first award from the Houston World Film Fest back in 2019, one of the best days of my life.

I am currently attending NuCamp to learn and earn certification with web development to be more versatile, but still have that passion for post production. I have an ordinary life, family man with a beautiful wife and two awesome kids. Every morning, I workout to start my day right. On the weekends, I enjoy spending time with my family and eventually get back to traveling.
